
Ontario Mountain Bike Racing Team 2014

Arrow's a provincial non-profit cycling organization with riders of all ages which:

- facilitates the development of aspiring young cyclists in their pursuit of excellence;
- promotes athletes in the sport of cycling at the local, regional, provincial, national and international levels;
- gives team members instruction in proper cycling technique, and gives them opportunities to race in local and regional cycling events, train under qualified coaches, and access local trails developed by our team and other organizations;
- provides opportunities for athletes to race at a high level of competition;
- provides financial support to team members who show ability and have performed well at the provincial and national level.

And has a lot of fun doing it.
